TRADE MARK

Twenty-Eighth Annual Edition

How to Order, Etc.

Free Delivery—On purchases of vegetable seeds from the list to the value of \$10.00 and upwards, WE WILL DELIVER FREE, by freight or express at our option, to any railroad station in the United States, PROVIDED that at least half of the order is composed of small seeds, that is, any vegetable seeds in the List other than Peas, Beans, or Corn.

Remittances can be made by Check, Express, or Postal Money Orders, Registered Letter, or 2-cent Postage Stamps will be accepted for small amounts.

Packing—No charges are made, nor for delivery to Freight Depots or Express Office in Philadelphia.

Postage—We pay postage charges on all orders for packets, ounces, and quarter-pounds of all seeds; pints, pounds, quarts not included; the latter should be remitted for in paid orders, viz.: for pints, 8c.; for quarts, 15c.; pounds, 8c. Packages by mail limited to four pounds.

Directions for Shipping should accompany all orders. Where these are omitted we use our best judgment.

Express C. O. D. Orders must be accompanied with cash to the extent of 25 per cent. of order.

Safe Arrival—This we guarantee in every instance.

Special Prices—Large growers or farmers' clubs requiring a large quantity of seed, write us, giving list of quantities and varieties wanted, and we will send estimate by return mail.

Non-Warranty—While we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty expressed or implied. If the purchaser does not accept the seeds on such terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

DANISH PRIZE BRUSSELS SPROUTS

BRUSSELS SPROUTS

DANISH PRIZE BRUSSELS SPROUTS

(We can recommend this strain especially
for market garden use)

The plants are of strong robust growth. The stalks are large, thick and close-jointed, so that the sprouts set thickly on the stalk. The sprouts develop for nearly the entire height of the stalk at about the same time,—consequently a very large crop can be gathered. Even the sprouts formed at the base of the stalk are tightly folded; they are quite as fine and solid as those higher up.

BEETS

All are grown from transplanted and selected roots of the most excellent quality, true to name and type, and of tested vitality.

ELY'S EUREKA EXTRA EARLY BEET

ELY'S EUREKA EXTRA EARLY BEET

(The first beet on the market)

The earliest and best beet ever introduced; color deep blood red, flesh fine and tender, and uniform in shape and size; the most profitable beet ever offered to the Market Gardener trade, cannot be recommended too highly for boxes and early Spring sowing.

Per ¼ lb., 45c.; Per lb., \$1.50; 10 lbs. or over at \$1.40

CROSBY'S IMPROVED EGYPTIAN BEET

A Money Maker for Market Men

A very superior Beet, carefully selected for years by Mr. Crosby, a noted gardener for the Boston markets, whose aim was to secure a perfect outdoor forcing variety. The results obtained were handsome form, good size, few small tops, very small tap root; fine quality, and above all, quick, rapid growth. The shape is very desirable, not quite so flat as the ordinary Egyptian, nor so round as the Eclipse. Takes on its turnip shape and looks well, even in the early stages of its growth, on which account it is preferred for forcing to the Globe and Half-Long varieties, which require longer time to grow to presentable market shape. This is a decided advantage to those who force for real early market, and especially where Beets are sold in bunches. It is preferred to all others for forcing in frame or for first sowing outside. Being a rapid grower it may be sown outside as late as July. We have made a very fine selection of this stock for years and we believe have it nearer the Original Crosby idea than any one in the trade.

Per ¼ lb., 35c.; Per lb., \$1.25; 10 lbs. or over at \$1.20

BEANS—DWARF OR SNAP

BLACK VALENTINE

(The earliest and most prolific of all Round Pod Green Beans)

This variety, which was introduced a few years since, has become very popular with Market Gardeners who grow Snap-Short Beans for early shipment. Its pods are round, extra long, almost straight, and in flavor unsurpassed. It is the most prolific Bean we have ever seen. Owing to the hardiness of the vines, they can be planted sooner than any other variety.

It cannot be recommended too highly to the Market Gardener, as he derives his greatest profit from the earliest crops.

Per qt., 25c.; Per pk., \$1.40; Per bus., \$5.00.

NEW GOLDEN WONDERWAX BEANS

(The best of all Round Poddled Stringless Wax Beans)

A new stringless wax bean which we cannot recommend too highly; pods are round, very long and straight; it is luxurious in growth and a heavy cropper; matures early and is unsurpassed in quality and productiveness.

Per qt., 30c.; Per pk., \$2.00; Per bus., \$7.00.

MICHIGAN WHITE WAX BEANS

(A New White-Seeded Stringless Flat-Pod)

For years past there has been a constant demand for white-seeded wax Beans, and in the new Michigan White Wax we have attained a Bean which has the desired features, a white seed with golden wax pod. The vine is large, robust, and vigorous; foliage heavy; handsome pods are produced in great abundance; very uniform in size and color, which is a very attractive light golden yellow; the pods are comparatively broad and meaty, without strings. The white seed is a distinct advantage, in that as Snap Beans they cook without discoloring, making them more attractive for the table, while as a dried Bean they are very handsome, and as useful as any of the staple white Beans on the market.

Per qt., 30c.; Per pk., \$1.75; Per bus., \$6.00.

BLACK VALENTINE

BEANS—BUSH LIMA

NEW FORDHOOK BUSH LIMA BEAN

The only stiffly erect Bush form of the Potato Lima. Both pods and beans are twice the size of Dreer's and more than half again as large as the Challenge Pole Lima.

FORDHOOK BUSH LIMA is positively upright in growth. The strong erect bushes withstand both whipping rains and high winds. The main stalk is stiffly erect, from two to two and one-half feet high, and from this is thrown out a great number of lateral branches, closely resembling Burpee's Bush Lima in this habit of growth. The foliage is much heavier than Dreer's; the leaf is broader, resembling that of a large Pole Lima, of heavy texture and dark green in color, while the pods are borne along stalks thrown out from the lateral and main stalks in "clusters" of from four to eight. The pods resemble Dreer's, but are much larger, measuring from four to five and one-half inches long, one and one-eighth to one and one-quarter inches wide, by as much as three-quarters of an inch thick.

FORDHOOK BUSH LIMA is fully twenty-five to thirty-three and one-third per cent. a heavier cropper. Both the green and the dried beans, as compared with Dreer's, are truly enormous, being more than double the size. On one bush we counted fifty-two pods, the majority containing four beans, while a great number contained five. In a selected plant of Dreer's there were not nearly so many well-formed pods, while a number contained only two small beans. The flavor of the green beans is all that can be desired in this chubby or potato lima type, which is given such preference on the New York markets. Being more productive, and of upright growth, with larger, handsomer pods, and from four to six days earlier, it is bound to entirely displace the Kumerle (Dreer's or Thorburn) Bush Lima.—*Description by the Originator.*

Per qt., 50c.; Per pk., \$3.25; Per bus., \$12.00.

THE "BURPEE IMPROVED" BUSH LIMA

This is also an entirely "New Creation." The pods are truly enormous in size, borne abundantly and well filled with handsome beans, which are both larger and thicker than those of the popular Burpee's Bush Lima.

THE "BURPEE IMPROVED" produces magnificent crops of pods, which measure from five to six inches long by one and one-quarter inches wide. As compared with Burpee's Bush Lima, both pods and beans are **very much larger**, while the beans, either green or dry, are **nearly twice as thick**. The green beans measured in the fields of the "BURPEE IMPROVED" were one and one-quarter inches long by seven-eighths of an inch wide and three-eighths of an inch thick, while the best that could be found in neighboring fields of Burpee's Bush Lima were one and one-eighth inches long, eleven-sixteenths of an inch wide and one-quarter of an inch thick. The beans are of the same delicious flavor as those of Burpee's Bush Lima or the Large Lima Pole Bean, while they are ready to use six to eight days earlier.—*Description by the Originator.*

Per qt., 40c.; Per pk., \$2.25; Per bus., \$8.50.

BEANS — POLE LIMA

ELY'S EXTRA EARLY MARKET LIMA

Ten days earlier than any other Pole Lima

The earliest and most productive pole lima bean ever offered for the garden. The large handsome pods grow in clusters and mature very early, avoiding the danger of frost in the early Fall to which most other varieties are exposed. The beans when shelled retain a green color, making them the most salable lima for the market.

Per qt., 35c.; Per pk., \$2.25; Per bus., \$8.00.

CABBAGE

The best in the world.

DANISH ROUND HEAD CABBAGE

DANISH "ROUNDHEAD"

An Earlier Shorter
Stemmed Type of the
Famous Danish
"Ballhead"

THE ORIGINAL DANISH BALL HEAD Cabbage has become very popular with Market growers on account of the extreme solidity and great weight of the heads as well as for its superior keeping qualities. At the same time, however, there has always been more or less objection to the rather long stem of this variety.

For this reason a shorter stem type has been selected and bred up until it is now very uniform. This shorter stem strain has been given the name **Danish Round Head**.

This variety although of very robust growth, has rather less outer leaves than the original strain and many growers consider it better able to resist blight. In fact it is as vigorous in growth as the best American varieties. The heads are fully as large and even heavier and of equally good quality, maturing about a week earlier. Heads are beautifully white, when trimmed and keep full as well when stored. Our seed of this short stem strain is direct from the same grower in Denmark, who furnishes our long stem strain.

Per oz., 30c.; Per 1/4 lb., 90c.; Per lb., \$3.00.

GLORY OF ENKHOUSEN

An Early Danish Cabbage of Superior Merit

This new Cabbage, Glory of Enkhausen, originated in Holland; in season it is very early, in fact as early as the Early Flat Dutch, with heads frequently twice as large, and weighing three times as much. The large-sized, ball-shaped heads are very firm and solid, leaves being fine ribbed and exceedingly tender. It is a dwarf and compact grower, allowing close planting; in fact some of its enthusiastic admirers claim it will yield more tons per acre than any other variety on account of close planting. This is not only a valuable early sort, but it grows so large that it can be profitably raised for main crop for Fall use. On account of its quick growth, this cabbage is a most desirable sort for market gardeners to set out late in July, after early potatoes or other Spring crops are harvested. It looks as if this cabbage would be extremely popular with the market gardeners generally.

Per oz., 30c.; Per 1/4 lb., 90c.; Per lb., \$3.00.

DANISH RED STONE HEAD CABBAGE

(The largest, most solid and compact of all red varieties)

This new red cabbage originated in Denmark, and is considered one of the best strains introduced. The plants are strong and compact in growth, producing dark red, round solid heads of large size, equally as hard and handsome in appearance as our famous Danish Ball Head. The red color extends to the centre of each head, making it a valuable sort for the market or pickling. Best imported Danish grown seed. Originator stock.

Per oz., 35c.; Per 1/4 lb., \$1.00; Per lb., \$3.50.

CAULIFLOWER

ELY'S EARLY SNOWBALL GILT EDGE CAULIFLOWER

(The best for forcing and early planting)

ELY'S EARLY SNOWBALL GILT EDGE CAULIFLOWER

The Snowball is a famous variety throughout the world, and ours is regarded as one of the finest strains; it is, without a question, the best for either market or private growing; there is no variety earlier and none that heads with greater certainty; the heads are large and beautifully formed and of the most delicate flavor and averaging nine to ten inches in diameter, of very close and compact growth, with very short outer leaves, enabling one-third more to be grown in the same space than any other variety; it eclipses them all for either forcing or cold-frame culture.

Per oz., \$3.00; Per ¼ lb., \$10.00;

Per lb., \$35.00.

ELY'S GIANT SNOW WHITE CAULIFLOWER

(The largest of all)

This new and splendid variety is recommended mainly for outside planting; heads are extremely large and solid; color, snow white; quality, unsurpassed. It is a sure header and heavy yielder and is without doubt the most profitable cauliflower on the market.

Per oz., \$5.00;

Per ¼ lb., \$18.00;

Per lb., \$50.00.

CARROT

Our Carrot Seeds are French Grown, and are superior to the American in both color and shape

RUBICON HALF-LONG CARROT

RUBICON HALF-LONG CARROT

(The finest all-around market carrot)

This variety is a great favorite with the Market Gardeners. It may be called a model, or perfect Carrot, not only for its beautiful and regular form, its brilliant orange color, but for its great uniformity of growth, its earliness and fine flavor. It is a fine carrot for bunching, has a short top, and is excellent for growing under glass.

MOONARCHIE CELERIAC

Grow this Celery for Big Profits in 1913

The finest green Celery in the country. This strong statement is backed by the many testimonials we have received, and the increase in our sales. Over Two Hundred growers in Kalamazoo, Michigan, are using our Celery.

GENUINE WINTER KING CELERY

GENUINE WINTER KING CELERY

(The Real Thing)

Our seed stock of the above has been selected so carefully that we do not hesitate to say that there is nothing on earth its equal as an early bleaching Green Celery. We hope the celery growers throughout the country, and particularly those in the muck or celery sections who have bought and used celery seed under the name of Winter King before, will make no mistake, as ours is not the ordinary stock offered by other houses, but the real thing for the celery grower that desires a Green Celery that will grow quickly and thrifty and bleach in time for Thanksgiving and Christmas market.

A feature about our Winter King Celery is its many golden hearts, its stout and robust growth, and the fact that the joints on the outer ribs are well up, making it the most profitable and advantageous variety for the celery grower. If you miss growing our Winter King, you miss a grand good thing.

Would you hesitate to buy this celery if you knew we were offering **Tested and Proven** seed? Would the fact that this grand variety that has done so well for our customers the past season, be of interest to you?

Winter King has given universal satisfaction.

Winter King has done more than we claimed for it.

Winter King has produced the finest type of green celery in the country.

Winter King has commanded the highest market price.

We want the most skeptical and critical to send for a sample for trial at our expense should there be the least doubt in their minds in regard to the above statements.

We are so sure that this celery will do all we claim for it, that we **guarantee** it. Guarantee it not only for **vitality** but for **quality** also. Money back if not found as represented.

Per oz., 50c.; Per $\frac{1}{4}$ lb., \$1.75; Per lb., \$6.00.

Another Grand Celery that has made a Big Hit

IMPROVED MAGNIFICENT CELERY

IMPROVED MAGNIFICENT CELERY

(The magnificent appearance of this
Celery always insures a ready market.)

This new and recently introduced celery has met with popular favor with those who like a celery that does not grow too tall. As its name signifies it is magnificent in appearance when done up in bunches ready for market, having the appearance of Golden Self-Blanching when bleached. It is stout, full of hearts, and a fine keeper for winter use. Our seed is pure, having been carefully selected. We did not say much about our Improved Magnificent Celery last year. We let it do the talking, and it certainly has given a good account of itself.

In fact, some like it better than our Winter King.

It grows slower, and produces a short, heavy solid stalk, bleaches easily, keeps well, and sells on sight.

For the muck or low land this celery is superior to anything on the market.

One of our customers writes, "Your Celery is well named; it certainly is magnificent."

As a rule we are very conservative both in regard to our descriptions and our cuts, but if you knew as much about our Winter King and Magnificent Celery as we do, you would not blame us for shouting a little. Using a borrowed expression, "We surely have the goods."

Guaranteed the same as Winter King.

Per oz., 50c.; Per ¼ lb., \$1.75; Per lb., \$6.00.

IMPROVED WHITE PLUME CELERY

COLUMBIA CELERY

It is an early green sort, unsurpassed in shape and quality. The plant is of medium height but very stocky and heavy. The stalks are thick, almost round, resembling in shape those of Giant Pascal; the color has in it more of the rich yellow tint of Golden Yellow Self-Blanching, which variety it resembles very much in appearance when trimmed and bunched for the market. The foliage is of a distinctly light shade of green, with a tinge of yellow. In season it follows in close succession Golden Yellow Self-Blanching. Its quality is certainly exceptionally fine, some connoisseurs considering it equal or even superior to either Golden Yellow Self-Blanching or Giant Pascal. The excellent form of plant and stalk, its fine color, earliness, and superior quality will commend this splendid novelty to all discriminating growers and buyers of this favorite vegetable.

Per oz., 50c.; Per ¼ lb., \$1.75; Per lb., \$6.00.

IMPROVED WHITE PLUME CELERY

(Light Top)

(The Earliest Celery)

Improvement has made our strain of this well known variety superior to that offered by most dealers at the present time. It is easily bleached, the stalks are crisp and tender, with a rich flavor that makes it a table favorite. Market Gardeners will find this stock most desirable on account of its fine appearance and salable qualities.

Per oz., 25c.; Per ¼ lb., 75c.; Per lb., \$2.50.

PARIS GOLDEN SELF-BLANCHING CELERY

(The finest type of Yellow Celery ever offered)

Our stock of this superb Celery is the finest ever offered in this country; it is French grown and has proved by actual test, to be the peer of all celeries of this variety on the Philadelphia market. Its splendid size and abundance of hearts, combined with a delicious flavor and solid stalks, make it all that can be desired as a perfect celery.

Per oz., \$1.30; Per ¼ lb., \$5.00; Per lb., \$20.00.

KREIN-BRING

CORN

KREIN-BRING'S

NEW EXTRA EARLY SWEET CORN

(Will bring the price)

Because it is the earliest, largest, sweetest Corn that has yet been produced. It is 10 to 12 rowed, five feet of fodder, and has two large ears to the stalk.

Do you want to make big money on early sweet corn? Plant the Krein-Bring and you certainly will. Mr. Kreinbring, from whom we obtained this corn, has long enjoyed the reputation of having the earliest, largest, and sweetest corn, first for sale, and has realized big money for it. (Mr. Kreinbring has retired from business, that's why we have this corn to offer.)

We are safe to say that any gardener growing this corn for market will have the lead of all competition just as soon as he will show to his customers its superiority over all other early sweet corn. Your customers will have no other, you will no longer hear them complain about the poor quality of early sweet corn. Send in your order early, as we have only a limited quantity to offer this year.

Per qt., 50c.; Per 4 qts., \$1.75; Per ¼ bus., \$3.00.

KREIN-BRING'S

NEW SECOND EARLY SWEET CORN

Larger ears and better quality, will follow in close succession with the above. We dare say that you will always want these varieties to plant if you want the best First and Second early Sugar Corn for the retail market. The stalks will bear two fine ears and on many you will find three. Plant this corn and get the highest price on the market.

Per qt., 50c.; Per 4 qts., \$1.75; Per ¼ bus., \$3.00.

NEW GIANT ITALIAN LEEK

ELY'S KNOX-ALL LETTUCE

Selected from Big Boston, but is superior to it in every way. If you use a Lettuce of that type this will please you

ELY'S KNOX-ALL LETTUCE

The ideal lettuce for spring and fall planting, has some of the features of Big Boston but is superior in size and keeping qualities, heads are large and solid, color beautiful light green, stands cold weather well and is one of the surest croppers ever introduced. No Market Gardener should fail to include this valuable variety in his order.

Ely's Knox-All is a fine forcing variety for cold frames during the winter months, and succeeds better in a cooler temperature than most forcing strains.

Ely's Knox-All is practically all head and extremely handsome. It heads well in the open ground during the cool weather of spring and fall.

Ely's Knox-All is a fine lettuce for shipping to distant markets; will always arrive in good condition.

Ely's Knox-All will stand for a longer time before starting to seed than any other lettuce of this variety.

Ely's Knox-All is uniform in growth, has very few seconds, making it the best and most profitable variety for the Market Gardener to grow.

Per oz., 25c.; Per $\frac{1}{4}$ lb., 75c.; Per lb., \$2.50.

BIG BOSTON

(If you are tired of planting Lettuce that is wild and unsalable, try our stock. It is a money maker.)

Our stock of Big Boston is the finest in the country, true to name, no mixture, every plant will make a head, will stand a long time before starting to seed.

Per oz., 15c.; Per $\frac{1}{4}$ lb., 50c.; Per lb., \$1.50; 10 lbs. or over at \$1.35.

NEW FRENCH WHITE BIG BOSTON LETTUCE

(Will not turn red. Grown from originator's stock.)

This is the classy type of Big Boston Lettuce, heads of solid white salad, introduced in this country only a few years ago, has made a big hit, is slow in seeding, fine for early spring or fall planting.

Per oz., 30c.; Per $\frac{1}{4}$ lb., 90c.; Per lb., \$3.00.

LETTUCE

ELY'S IDEAL HOT WEATHER LETTUCE (Crop failed)

ELY'S QUAKER HEAD LETTUCE

(Will not turn red, new variety)

This new variety came to us from a Philadelphia Market Gardener. It is a light green Lettuce, with large white solid heads, slow to seed, will not turn red from the cold. This feature is a decided advantage, as the discoloration is an objection and a detriment to your sales. This is the Lettuce for the gardener with fancy trade—it will bring the price.

Per oz., 25c.; Per ¼ lb., 75c.;
Per lb., \$2.50; 10 lbs. or over,
\$2.35 per lb.

ST. LOUIS BLACK-SEEDED FORCING

This is the best head or Cabbage Lettuce to force under glass, also for early planting outdoors. It is grown by nearly every St. Louis Market Gardener, and should be grown by all who grow lettuce for the market; when well grown forms very compact, solid heads.

Per oz., 15c.; Per ¼ lb., 50c.; Per lb., \$1.50.

ST. LOUIS MARKET

An excellent and very popular head variety, good for forcing and outdoor planting; large, white, solid head. This is one of the best and the leading sort with the St. Louis Gardeners.

Per oz., 15c.; Per ¼ lb., 50c.; Per lb., \$1.50.

ELY'S HIGH GRADE ONION SEEDS

A FIELD OF OUR ONION SEED

We have for years made a specialty of growing onion seed, and by careful and constant selection have obtained a degree of purity and quality that is unsurpassed. We make an annual selection of the bulbs from which we grow supplies, which always insures to our customers seeds of the greatest purity and strongest growth. Market Gardeners or onion set growers who use onion seed in large quantities should write for special prices.

SOUTHPORT YELLOW GLOBE ONION

A great cropper of handsome large globe-shaped onions

This represents the product of years of careful selection and is the most perfect type of the Yellow Globe Onion which intelligent, painstaking care can produce. It is immeasurably superior to the average seed offered, not only in shape and color, but in productiveness. This, our special strain, is all grown from selected, hand-picked bulbs; none but those perfect in size and shape being set for seed.

Per oz., 20c.; Per $\frac{1}{4}$ lb., 45c.; Per lb., \$1.50.
10 lbs. or over at \$1.35.

EXTRA SELECT PRIZETAKER ONION

Our stock can be depended upon

This variety, introduced but a few years ago, has proved to be an excellent keeper, of finest flavor, handsome shape and enormous size, many single onions having been raised to weigh five pounds or over, from seed the first year. It is of the same type as those immense imported onions which can be seen in fruit stores and always commands a very high price. The Prizetaker grows always to a perfect globe shape, with bright, straw-colored skin; the necks are very small and the onions always ripen up hard. Our special strain is the result of continued selection, only perfect shaped bulbs being used for raising seed. It is the choicest genuine American grown stock to be found.

Per oz., 20c.; Per $\frac{1}{4}$ lb., 45c.; Per lb., \$1.50.
10 lbs. or over at \$1.35.

PEAS

LITTLE MARVEL PEA

(The best dwarf wrinkled pea introduced for many years)

The vines, of dwarf even growth, average fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average two and one-half inches in length, are square at the bottom and well filled with six to seven quite large, deep green peas. The peas are ready for the table fully as early as American Wonder or Nott's Excelsior, while the pods are larger and the vines produce a much heavier crop. All who desire a fine early crop of the choicest quality of wrinkled peas will be delighted with LITTLE MARVEL.

Per qt., 50c.; Per pk., \$3.25; Per bus., \$12.00.

PRINCE EDWARD OR PRODIGIOUS PEA

(The Giant of the Pea Family)

This variety produces enormous pods of seven inches and upwards, closely packed with 11 to 13 large, dark green peas of fine flavor. Every reader of this book must admit it is well named. For exhibition purposes it is simply unsurpassed. Exhibited at all the leading shows in England, the last eight years, it has always taken first prize. The plant is of branching habit, growing about four feet in height, with dark green foliage. It is of very vigorous and robust constitution, which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs. Prodigious cannot be excelled as an exhibition sort, on account of its striking and very attractive appearance; and will also be in demand wherever there is a call for a pea of robust habit, fine quality and hardy constitution. Market gardeners who do not know Prodigious should give it a trial.

Per qt., 35c.; Per pk., \$2.50; Per bus., \$9.00.

GRAND MONARCH PEA

(The most prolific of all Early Peas)

This new introduction is the finest and most productive early pea of the present day; pods large and well filled with eight to ten well-matured peas, delicious in flavor, and remaining tender a long time. Vines grow 2½ to 3 feet high and are filled with clusters of pods which make it the Monarch of Early Peas.

Per qt., 40c.; Per pk., \$2.75; Per bus., \$10.00.

ELY'S WHITE PEARL FORCING RADISH

(The best of all the Early White Forcing Radishes)

This is the best white radish for boxes or greenhouse culture on the market, quick growing, color a beautiful ivory white, tops short and compact, flesh crisp and solid. It is undoubtedly the finest white box radish in existence, and one that no market gardener can afford to be without.

Per oz., 10c.; Per ¼ lb., 25c.; Per lb., 75c.

NEW WHITE GLOBE RADISH

(For forcing or open culture, never pithy)

A mild flavored beautiful white globe-shaped radish that will prove satisfactory to all who grow them for market. For the retail market gardener they will prove a seller, customers will come back for them. They do not get hollow, they are a delight and a relish. Try them and you will buy more.

Per oz., 10c.; Per ¼ lb., 30c.; Per lb., \$1.00.

SCARLET TURNIP WHITE TIP

SCARLET TURNIP WHITE TIP RADISH

(With a distinct White Tip)

This is an improved strain of the Scarlet Turnip White Tip Radish. Many of the strains of the White Tip Radish show but little white, all being red, but in this strain nearly one-half of the lower part of the radish is a beautiful waxy white. The upper part of the radish being a bright scarlet, and with very small tops, will make them exceedingly desirable. The growth is rapid; the tap-root is very small, and the quality of the radish is crisp and mild. As a market garden strain this will excel all others of the White Tip sort.

Per oz., 5c.; Per ¼ lb., 15c.; Per lb., 50c.

MAMMOTH ITALIAN SPINACH

(Good for all seasons)

The long season kind, heavy, dark green, and crumpily; absolutely the best and most profitable spinach for the Market Gardener to grow in all seasons. A valuable feature of this spinach is its wonderful long standing qualities without showing any disposition to shoot to seed. We most earnestly persuade our friends and customers to try this variety.

Per lb., 25c.; Per 100 lbs. at 20c.

BLOOMSDALE CURLED SAVOY SPINACH

(Warranted true)

This is an old and well known variety which is exceedingly popular in all sections of this country, and is especially recommended for early winter use; the leaves are beautifully crimped or blistered and of a very dark green color.

Per lb., 20c.; Per 100 lbs. at 18c.

SALSIFY or OYSTER PLANT

MAMMOTH SANDWICH

ISLAND SALSIFY

MAMMOTH SANDWICH ISLAND SALSIFY

Our stock of the above variety is grown by a Market Gardener of long experience, and by careful selection has been brought to its present state of perfection. The roots are very large, long and smooth, and taper to a point; white in color and with a very delicate flavor, making it much superior to the old style.

Per oz., 10c.; Per ¼ lb., 30c.; Per lb., \$1.00.

ELY'S MAMMOTH WHITE

Per oz., 10c.; Per ¼ lb., 30c.; Per lb., \$1.00.

GIANT WHITE FRENCH

Per oz., 10c.; Per ¼ lb., 30c.; Per lb., \$1.00.

TOMATO

Selected from the finest fruits, grown and saved for seed only

ELY'S EXCELSIOR TOMATO

ELY'S EXCELSIOR TOMATO

(A new large extra early red sort)

This new tomato you will find superior to anything now on the market. We hesitated some time before listing it, as there are already enough tomatoes, but you will find this one something better than any extra early tomato you have grown before. It is as early as the Earliana, a beautiful brilliant red color, fruit large and good shape. It is an enormous yielder, the unusual absence of leaves permits all the fruit to ripen so remarkably early.

Per oz., 50c.; Per ¼ lb., \$1.75; Per lb., \$6.00.

NEW TOMATO—CARDINAL

(A new early tomato that is a wonderful cropper)

All who want an early, large, smooth, red tomato will get it in our Cardinal. We want those who grow a few and growers who put out acres, to plant Cardinal. If you want big fruit, smooth fruit, and no irregular shaped fruit in your crop, this is the tomato for you. They are solid, meaty, and thick skinned; they are a fine shipper; will stand the weather and will not sun scald like others. They are some croppers; need plenty of room to do best.

Per oz., 50c.; Per ¼ lb., \$1.75; Per lb., \$6.00.

TOMATO, EARLIEST JUNE PINK

The earliest Pink Tomato on the market. Our Seed is saved from the crown setting the first fruit on the vine.

Per oz., 30c.; Per ¼ lb., \$1.00; Per lb., \$3.50.

TOMATO, BEACHAM'S PINK BEAUTY, EARLY

A perfect and most marketable Pink Tomato; smooth, large, and solid and meaty through and through.

Per oz., 50c.; Per ¼ lb., \$1.50; Per lb., \$5.00.

TOMATO, THE DANDY PINK

A grand big Pink Tomato, for second early or main crop; is a fine shipper; the skin is tough and the flesh thick and meaty; a handsome Tomato.

Per oz., 50c.; Per ¼ lb., \$1.50; Per lb., \$5.00.

ELY'S SUPERIOR TURNIPS

THE STONE TOMATO

(Our stock of Stone Tomatoes is considered by many of our customers who have planted it year after year as the finest tomato for main crop that can be had. We know it's hard to beat.)

This variety is recommended for a main crop, is of large size, bright scarlet color, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm-fleshed, is an excellent shipper and one of the very best for canning; is a good keeper, free from core and not subject to rot; its appearance remarkably attractive; its vines and foliage robust, heavily loaded with very uniform specimens of fruit.

Per oz., 20c.; Per ¼ lb., 60c.; Per lb., \$2.00.

LIVINGSTON'S GLOBE TOMATO

(The Finest Early Purple Tomato in Existence)
Very Distinct in Shape, Firm Fleshed, of Delicate Flavor. Blight Proof.

Livingston's Globe Tomato is an extra good all round sort of a distinct globe shape, with quite a large percentage of elongated fruits. It is a very beautiful variety on account of its shape, one that permits of a greater average number of slices to be taken from each fruit.

Livingston's Globe Tomato is early. In time of ripening we class it with the first-earlies, being among the first to ripen fruit, both in our green houses as well as our field trials, along with many other varieties. The fruits are of large size, and a good marketable size is retained throughout the season; it is always smooth, of firm flesh, and few seeds; ripens evenly; color, a fine glossy rose, tinged with purple, and without the slightest tinge of yellow at any stage of ripening.

Livingston's Globe Tomato is an exceedingly productive variety, having plants with many short joints, at which large clusters containing three to seven fruits are almost invariably formed, so that it can be truthfully stated the plants are literally loaded with fruit. It is a remarkably good keeper, none of the many varieties we grow surpassing it in this respect.

Per oz., 35c.; Per ¼ lb., \$1.00;
Per lb., \$3.50.
